THE JOB IN ONE PAGE

How the *Bank Heist* works

Bank Heist is a free weekly game for partners of Golden Capitals. You do not stake anything. Your gang is your partner structure, your weapon is activity, and the prize is set by Golden Capitals for every raid.

Every week

A new raid every week. A leader can apply once in 7 days.

A team game

Your gang is every partner below you who made a deposit. Everyone helps.

One prize

The winning leader takes the whole prize and shares it with the gang.

01

Build a gang

5 or more partners on any level with at least one deposit.

02

Apply

Press the button. The boss checks the gang.

03

Prepare

Every member brings one tool a day. Deposits add points.

04

Raid

At the set time the vault opens for one gang.

05

Share

The prize lands on the leader balance after the admin confirms it.

EVERY BIG JOB STARTS WITH PREPARATION

Where to find it

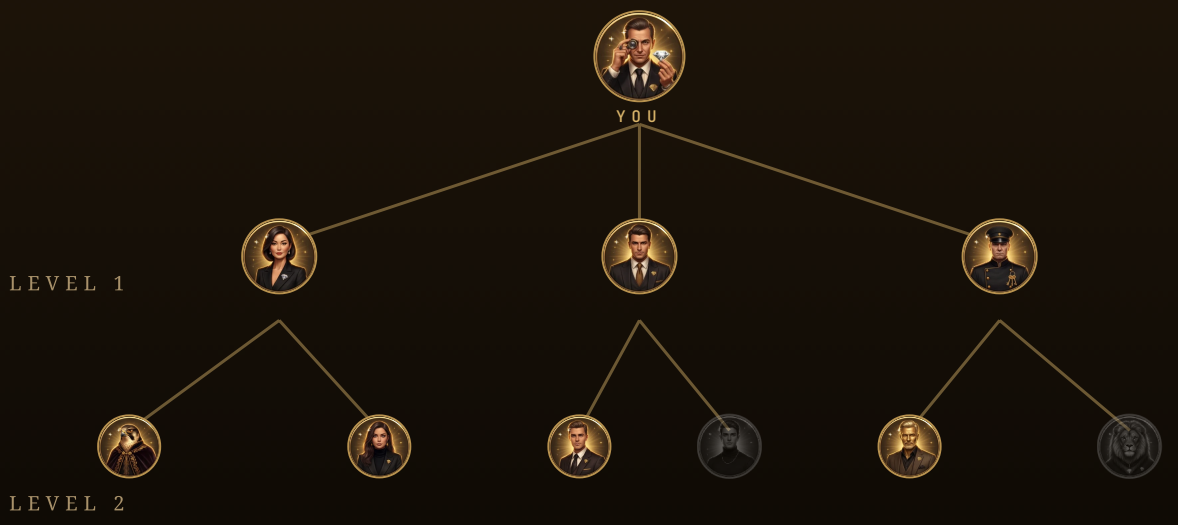

Log in, open your cabinet and choose **Bank Heist** in the left menu. Everything happens on that one page: your gang, the countdown, tools, the raid and the Hall of fame.

STEP 01 BUILD A GANG

Your partners are *your gang*

Your gang is your whole partner structure: people you invited, people they invited, and so on, on every level. A partner joins the gang the moment they make **at least one deposit**. It does not matter when, and the deposit does not have to be active now.

YOUR STRUCTURE

Gold: partners with a deposit, they are in the gang (7 here). Grey: registered but never deposited, not counted yet.

To apply you need

5+

ACTIVE PARTNERS ON ANY LEVEL

The ring on the Bank Heist page shows how many you have, for example 3 of 5.

How to grow the gang

- ☑ Share your **referral link** from the Partners page.
- ☑ Send your **personal landing page**, it is made for you.
- ☑ Use the presentation PDF, banners and the Telegram channel.

Counts

A partner on any level who made at least one deposit, even an old one.

Counts too

Partners of your partners: level 2, 3 and deeper.

Does not count

Registered but never deposited. Blocked accounts.

Help them make the first step

A partner who registered but never deposited does not count. Help new people with their first deposit, it brings them into the gang and grows your partner income at the same time.

STEP 02 APPLY

Get the green light from *the boss*

BANK HEIST PAGE

OF 5

APPLY FOR THE HEIST

The button opens when you have 5 active partners

Press **Apply for the heist.** At that moment we save a snapshot of your gang and send it to the boss, the Golden Capitals team. Every gang is checked by a person, not by a robot.

What the boss checks

- ☑ Every partner is a real, separate person.
- ☑ Deposits were made with their own funds.
- ☑ Registration dates, history, activity.
- ☑ Your past raids and results.

The rules of the application

- ☑ One application every **7 days**.
- ☑ One active application at a time.
- ☑ Status on the page: **On review**, **Approved** or **Rejected** with the reason.
- ☑ You also get an e-mail with the decision.

01

On review

The boss checks your gang, usually within a few days.

02

Approved

You get an e-mail. Your gang waits for the raid date.

03

Date is set

The countdown starts and so does the preparation.

04

Rejected?

The reason is on the page. Apply again after 7 days.

⚠ **Fake gangs never pass**

Several accounts of one person, partners from one network or device, fresh accounts made right before applying, deposits without own top-ups: such applications are rejected, and a prize won with such a gang is not paid.

STEP 03 PREPARE

One tool a day, *every day*

When the gangs are approved, the boss sets the raid date. A countdown appears on the page and the preparation starts. Now every member of your gang, you included, can press **Bring a tool** once a day.

NEXT RAID

02	13	45	30
DAYS	HRS	MIN	SEC

BRING A TOOL

Opens a crate with a random tool

Every member sees who already brought a tool today, so the gang can see who is sleeping. Rare tools like the Thermal lance or the Getaway car can change the whole picture.

TOOL	POINTS	CHANCE
Gloves	+5	24%
Ski mask	+6	20%
Walkie-talkie	+8	16%
Lockpick	+10	14%
Power drill	+12	11%
Bank blueprint	+15	8%
Thermal lance	+20	5%
Getaway car	+30	2%

How the gang score is counted

1 PER ACTIVE PARTNER + all tools BROUGHT BY THE GANG + 25 PER NEW DEPOSIT = Gang points BEFORE THE RAID TIME

Example: a leader with 8 active partners. 9 people bring a tool for 5 days, about 45 tools for roughly 450 points. Two partners make new deposits, +50. Total: 8 + 450 + 50 = **about 508 points**.

Wake up your team

A tool not brought today is lost, it does not carry over to tomorrow. The days reset at midnight server time. Remind your partners every day in your chat: activity beats size.

STEP 04 RAID

The vault opens for *one gang*

At the set time the raid starts by itself. Tools and deposits made after that moment do not count. The server draws the places using the points of every gang: **more points mean a bigger chance**, but even a small gang can crack the vault.

EXAMPLE OF CHANCES

max_gold	**508**	57% chance
oliver18	**254**	29% chance
lucas84	**127**	14% chance

Chance = gang points divided by the points of all gangs in the raid.

Provably fair: nobody can change the result

1

The seal. When the date is set, the page shows a seal: the SHA-256 code of a secret number.

2

The draw. The places are calculated from that secret number and the points. It was fixed before the raid.

3

The check. After the raid the number is revealed and your browser checks it against the seal: match.

Missed the moment?

No problem. The result is the same whenever you open the page. Press **Watch the raid** to see the replay: gangs race to the vault, the police catch them one by one, the last one opens the vault.

STEP 05 SHARE THE LOOT

The prize goes to *the leader*

THE JOB IS DONE, TIME TO SHARE

Raid ends

The winner is shown on the page and gets an e-mail.

Admin check

The team confirms the gang played fair.

Prize credited

A bonus in the payment system of the raid lands on the leader balance.

Leader shares

The leader shares the loot with the gang.

Good leaders share well

- ☑ Agree how you split **before** the raid.
- ☑ Reward those who brought tools every day.
- ☑ Show the gang the bonus in your operations list.

Prize and amount

The prize and the payment system are set by Golden Capitals for every raid and shown on the page and in the e-mail when the date is set. The winner of every raid enters the **Hall of fame**.

⚠ Paid only after the check

The prize is credited after the admin confirms the result. If the rules were broken, for example fake accounts in the gang, the prize is declined.

LEADER'S CHECKLIST

Your *weekly* routine

Before the raid

- [x] Check the ring: **5 of 5** or more.
- [x] Press **Apply for the heist**.
- [x] Tell your gang the raid is coming.
- [x] Agree how you will share the prize.

During the preparation

- [x] Bring **your own tool** every day.
- [x] Remind the gang in your chat daily.
- [x] Help new partners with their first deposit.
- [x] Watch the board of gangs and the chances.

Is the game free?

Yes. You do not pay or stake anything. Points come from activity of your gang.

Can one partner be in two gangs?

A partner works for the nearest approved leader above them in the structure.

My application was rejected. What now?

Read the reason on the page, fix it and apply again after 7 days.

Do tools carry over to the next raid?

No. Every raid starts from zero, only the gang size gives base points.

When does the day for tools reset?

At midnight server time. One tool per member per day.

How do I know the draw was fair?

Compare the seal shown before the raid with the revealed number. The page does it for you.

CRACK THE VAULT

Open your cabinet at **golden-capitals.com**, choose **Bank Heist** and start building your gang today.

Bank Heist is a promotional game. Prizes, dates and rules for every raid are set by Golden Capitals and may change. The prize is paid only after the admin confirms the result. Investing involves risk, including the possible loss of capital.
